

Instrument Panel System (model 822FJ)

The ATech Instrument Panel System Trainer (model 822FJ) is designed to teach computer and network controlled automotive instrument panel system operation. This trainer allows for instructor demonstration, student hands-on reinforcement and troubleshooting practice. Powered by a 12VDC automotive battery or a 12VDC/10AMP (minimum) power supply (not included).

Features:

- Actual new vehicle components, connectors, and factory wire colors.
- Provides an advanced level of instruction by duplicating actual on-vehicle troubleshooting procedures.
- Intermittent and hard fault codes can be inserted using the built-in keypad, a single computer, or the ATech Network System (ANS).
- Ability to perform actual service manual test procedures.
- Compatible with ATech's Instructor Management Program (IMP).
- Courseware includes Instructor Guide, Student Manual, and Service Manual Information.
- Battery posts are protected against polarity reversal.
- Includes internal power supply for fault activation.
- Controlled by Body Control Module (BCM).
- Operated as a stand-alone trainer, or connected to the Lighting System Trainer (model 821FJ) and the Power Door Lock Trainer (model 850FJ) to teach and demonstrate vehicle systems integration.
- Connection to Tech2™ (not included) via the DLC connector.
