

ATech Network System (ANS16) - Serial Hub

Features:

The ATech Networking System provides an interface between the ATech Instructor's Management Program (IMP) and the trainers for fault insertion and record keeping. Up to 16 trainers can be simultaneously controlled per hub, with a maximum of 3 hubs. Faults can be inserted to multiple ATECH trainers via the Local Area Network or Crossover Cable. Fault insertion and student record keeping are accomplished using the IMP.

- The ANS components include:
 - » 16-port Serial Hub
 - » LAN Interconnect cable for connection to Local Area Network
 - » Red Crossover cable for connection without Local Area Network
 - » 16 Orange 25 ft. CAT5 cables for connecting trainers to the Serial Hub
 - » Serial Hub installation utility on USB flash drive
 - » ATech Instructor's Management Program

- Compatible Trainers:

- » 2652 GM J1850 OBD II
- » 1351 A/C Automatic Climate Control
- » 1551 GM SIR Dual Air Bag
- » 1711F GM Direct Ignition System
- » 1771SF C3I Suitcase
- » 1772 GM Electronic Ignition (EI) System
- » 1792 Integrated Electronic Ignition
- » 1801B Electrical System (USB)
- » 18002TT SET Troubleshooting Trainer
- » 310FJ Cooling Fan System
- » 320FJ Blower Control System
- » 1432 DELCO DBC7 ABS/TCS System
- » 1672 Ford EEC OBD II System
- » 3801 J1850 Network Trainer
- » 640 EVAP System
- » 700F Distributor Ignition
- » 811FJ Starting System
- » 812FJ Charging System
- » 821FJ Lighting System
- » 822FJ Instrument Panel
- » 830FJ Wiper/Washer System
- » 840FJ Power Windows System
- » 850FJ Power Door Locks System
- » 860FJ Power Seat System
- » 1792 Ford Integrated Electronic Ignition System
